

MIHIR BORSANIYA

Full Stack Engineer

Surat, Gujarat, India | developermihir13@gmail.com | +91 75758 96243 | github.com/MihirStack | linkedin.com/in/mihirborsaniya

PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years building production ERP and multi-tenant SaaS platforms end to end. Designs REST APIs, models relational schemas, and owns deployments on Linux VPS with NGINX, PM2, and CI/CD. Strong across Node.js, Express, React, TypeScript, and MySQL, with hands-on payment-gateway and real-time integrations. Focused on secure, performant systems — JWT, RBAC, query optimization, caching, and zero-downtime releases.

EXPERIENCE

Full Stack Engineer

Jan 2026 – Present

Logicode Software LLP

- Architected a multi-tenant SaaS platform (AksharPOS) with per-tenant database isolation and dynamic, LRU-cached connection routing.
- Built 50+ normalized MySQL models across 10+ ERP modules; secured the API with JWT and module-level RBAC.
- Automated deployment on Linux VPS (NGINX, PM2 cluster, GitHub Actions CI/CD) and integrated Razorpay with webhook verification; added Redis caching to cut hot-path query load.

Full Stack Developer

Jul 2025 – Jan 2026

Codebrain Infotech

- Built an HRMS covering attendance, leave, and employee management with role-aware React dashboards (Redux Toolkit, React Query).
- Developed REST APIs on Node.js, Sequelize, and MySQL with authentication and authorization.
- Integrated Firebase Cloud Messaging for a real-time employee notification system.

Full Stack Developer

Jul 2023 – Jun 2025

DI Solutions

- Delivered 10+ modules across Manufacturing ERP, Medical ERP, POS, and e-commerce following MVC architecture.
- Built inventory, purchase, sales, shipment, and logistics features with React, Node.js, Express, and Sequelize/MySQL.
- Integrated Razorpay, Stripe, and PayPal; added real-time updates with Socket.IO and Swagger-documented APIs.

PROJECTS

AksharPOS ERP (Logicode). Multi-tenant ERP/POS SaaS — shared API with per-tenant MySQL DBs, 50+ models, 10+ modules, sub-30-second tenant onboarding, live in production.

HRMS Platform (Codebrain). Attendance, leave, and employee management with role-aware dashboards and Firebase real-time notifications.

Multi-Domain ERP & Commerce (DI Solutions). Manufacturing/Medical ERP, POS, and e-commerce on shared inventory with Socket.IO real-time flows and Razorpay/Stripe/PayPal checkout.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript

Frontend

React.js, Next.js, Redux Toolkit, React Query, Tailwind CSS, Bootstrap

Backend

Node.js, Express.js, REST APIs, Socket.IO, MVC Architecture

Database

MySQL, MongoDB, Redis, Sequelize ORM, Firebase

Auth & Payments

JWT, OAuth, RBAC · Razorpay, Stripe, PayPal

DevOps & Tools

Linux, NGINX, PM2, GitHub Actions, CI/CD · Git, GitHub, Postman, Swagger

EDUCATION

Master of Computer Applications (MCA) — Information Technology | Bachelor of Commerce (B.Com)
